Founder and Managing Director of Brano Holding, a growing consumer goods and diversified company in the Middle East. I am passionate about exceeding customer expectations and creating a lasting impact on the industry.

My portfolio includes diverse companies that cater to distinct consumer needs across multiple sectors. This encompasses Beerankutty General Trading, focused on wholesale cosmetics, and Lexo Home Care, where I serve as Founder and Managing Director, offering comprehensive everyday essentials such as detergents, dishwash, handwash, and facial tissue product lines. The portfolio also spans the fashion, seafood, and gold and diamond industries.

Our group offers exceptional service, long-term partnerships, and a diverse product range sourced from global brands. We maintain a robust distribution network and serve various businesses promptly.

Furthermore, we excel in manufacturing, importing, and exporting gold and diamonds, committed to upholding the highest standards of integrity and maximizing value in the precious metals and gems sector, while also supplying quality fish worldwide.

Let's connect and explore collaboration opportunities. Together, we can make a difference in creating exceptional consumer experiences.
